

GERMS

SCAVENGER HUNT

In a Bottle

Items Needed

A clean (plastic) bottle with a lid, bird seed or rice, 20 small trinkets (Suggestions: penny, toothpicks, paper clip, screw, nail, small pom-pom, wiggly eye, etc.)

These 20 items will be your “Germs.”

1. Put all 20 “Germs” inside the bottle
2. Fill the bottle with birdseed or rice, leaving 1-2” air space at the top.
3. Turn the bottle around and around and around until all “germs” are mixed into the birdseed.
4. Go on a Scavenger Hunt.

Can you locate all 20 germs (items)

You can turn or shake the bottle...but don't open it!

Good luck! It is harder than it sounds!

Plastic water bottles work perfectly!
